

Give patients' pain a rest

Advil® PM combines the power of the #1 doctor-recommended oral analgesic ingredient* with a gentle, non-habit-forming sleep aid. Tell your patients that Advil PM can help them get longer, better-quality sleep than Tylenol® PM.[†] Your recommendation matters.[‡] See it for yourself.

^{*}P < 0.05 vs placebo.
[†]P < 0.05 vs Tylenol PM.

The efficacy of Advil PM was proven significantly better than acetaminophen and placebo in a double-blind, randomized, single-dose, parallel-group, single-center study.

Use product as directed for occasional sleeplessness when associated with minor aches and pains.

Order Advil PM from your wholesaler today.
